1. If the bidder is a Micro or Small Enterprise as per latest orders issued by Ministry of MSME, the bidder shall be relaxed from the eligibility criteria of "Experience Criteria" as defined above subject to meeting of quality and technical specifications. The bidder seeking Relaxation from Experience Criteria, shall upload the supporting documents to prove his eligibility for Relaxation.
2. If the bidder is a Micro or Small Enterprise (MSE) as per latest orders issued by Ministry of MSME, the bidder shall be relaxed from the eligibility criteria of "Bidder Turnover" as defined above subject to meeting of quality and technical specifications. If the bidder itself is MSE OEM of the offered products, it would be relaxed from the "OEM Average Turnover" criteria also subject to meeting of quality and technical specifications. The bidder seeking Relaxation from Turnover, shall upload the supporting documents to prove his eligibility for Relaxation.
3. If the bidder is a DPIIT registered Startup, the bidder shall be relaxed from the the eligibility criteria of "Experience Criteria" as defined above subject to their meeting of quality and technical specifications. The bidder seeking Relaxation from Experience Criteria, shall upload the supporting documents to prove his eligibility for Relaxation.
4. If the bidder is a DPIIT registered Startup, the bidder shall be relaxed from the the eligibility criteria of "Bidder Turnover" as defined above subject to their meeting of quality and technical specifications. If the bidder is DPIIT Registered OEM of the offered products, it would be relaxed from the "OEM Average Turnover" criteria also subject to meeting of quality and technical specifications. The bidder seeking Relaxation from Turnover shall upload the supporting documents to prove his eligibility for Relaxation.
5. The minimum average annual financial turnover of the bidder during the last three financial years, ending on 31st March of the previous financial year, should be as indicated in the bid document. The turnover of the bidder shall be validated by the system based on the financial data available on the GeM portal. The average turnover shall be calculated based on the last three financial years where data is available; in case data is available for only two of the last three financial years, the average shall be computed based on those two years. In case the date of constitution / incorporation of the bidder is less than three years old, the average turnover in respect of the completed financial years after the date of constitution / incorporation shall be taken into account for this criterion. No separate documentary evidence is required to be uploaded by the bidder for this criterion, as the system shall derive and validate the turnover figures from the data available on the GeM portal.
6. Experience Criteria: In respect of the filter applied for experience criteria, the Bidder or its OEM of the product offered in the bid {themselves or through reseller(s)} should have regularly, manufactured and supplied same or similar Category Products to any Central / State Govt Organization / PSU for number of Financial years as indicated above in the bid document before the bid opening date. Copies of relevant contracts and delivery acceptance certificates like CRAC to be submitted along with bid in support of having supplied some quantity during each of the Financial year. In case of bunch bids, the category of primary product having highest value should meet this criterion.
7. OEM Turn Over Criteria: The minimum average annual financial turnover of the OEM of the offered product during the last three years, ending on 31st March of the previous financial year, should be as indicated in the bid document. Documentary evidence in the form of certified Audited Balance Sheets of relevant periods or a certificate from the Chartered Accountant / Cost Accountant indicating the turnover details for the relevant period shall be uploaded with the bid. In case the date of constitution / incorporation of the OEM is less than 3 year old, the average turnover in respect of the completed financial years after the date of constitution shall be taken into account for this criteria.
8. **Purchase preference to Micro and Small Enterprises (MSEs):** Purchase preference will be given to MSEs having valid Udyam Certificate and whose credentials are validated online through Udyam Registration portal as defined in Public Procurement Policy for Micro and Small Enterprises (MSEs) Order, 2012 dated 23.03.2012 issued by Ministry of Micro, Small and Medium Enterprises and its subsequent Orders/Notifications issued by concerned Ministry. If the bidder wants to avail themselves of the Purchase preference, the bidder must be the manufacturer / OEM of the offered product on GeM. In respect of bid for Services, the bidder must be the Service provider of the offered Service. Traders are excluded from the purview of Public Procurement Policy for Micro and Small Enterprises and hence resellers offering products manufactured by some other OEM are not eligible for any purchase preference. Relevant documentary evidence in this regard shall be uploaded along with the bid in respect of the offered product or service, and Buyer will decide eligibility for purchase preference based on documentary evidence submitted in case of product bids, whereas in case of services the eligibility is automatically validated. If L-1 is not an MSE and MSE Seller (s) has / have quoted price within L-1+ 15% (Selected by Buyer) of margin of purchase preference /price band defined in relevant policy, such MSE Seller shall be given opportunity to match L-1 price and contract will be awarded for 25% (selected by Buyer) percentage of total quantity. The

buyers are advised to refer the OM_No.1_4_2021_PPD_dated_18.05.2023 for compliance of Concurrent application of Public Procurement Policy for Micro and Small Enterprises Order, 2012 and Public Procurement (Preference to Make in India) Order, 2017. Benefits of MSE will be allowed only if seller is validated on-line in GeM profile as well as validated and approved by Buyer after evaluation of documents submitted.
9. Estimated Bid Value indicated above is being declared solely for the purpose of guidance on EMD amount and for determining the Eligibility Criteria related to Turn Over, Past Performance and Project / Past Experience etc. This has no relevance or bearing on the price to be quoted by the bidders and is also not going to have any impact on bid participation. Also this is not going to be used as a criteria in determining reasonableness of quoted prices which would be determined by the buyer based on its own assessment of reasonableness and based on competitive prices received in Bid / RA process.
10. Past Performance: The Bidder or its OEM {themselves or through re-seller(s)} should have supplied same or similar Category Products for 50% of bid quantity, in at least one of the last three Financial years before the bid opening date to any Central / State Govt Organization / PSU. Copies of relevant contracts (proving supply of cumulative order quantity in any one financial year) to be submitted along with bid in support of quantity supplied in the relevant Financial year. In case of bunch bids, the category related to primary product having highest bid value should meet this criterion.

11. Reverse Auction would be conducted amongst all the technically qualified bidders except the Highest quoting bidder. The technically qualified Highest Quoting bidder will not be allowed to participate in RA. However, H-1 will also be allowed to participate in RA in following cases:

i. If number of technically qualified bidders are only 2 or 3.
ii. If Buyer has chosen to split the bid amongst N sellers, and H1 bid is coming within N.
iii. In case Primary product of only one OEM is left in contention for participation in RA on elimination of H-1.
iv. If L-1 is non-MSE and H-1 is eligible MSE and H-1 price is coming within price band of 15% of Non-MSE L-1
v. If L-1 is non-MII and H-1 is eligible MII and H-1 price is coming within price band of 20% of Non-MII L-1

workstation, image processing software, radiation protection accessories and all ancillary equipment required for immediate clinical operation.

2. The system shall be specifically designed for veterinary applications and suitable for diagnostic imaging of dogs. It shall be capable of performing high-quality thoracic, abdominal, skeletal, spinal, orthopedic, dental and extremity radiography in animals ranging from small/toy breeds (approximately 5 kg) to large and giant breeds (≥40 kg).

3. The offered equipment shall be a new, latest-generation model and comply with applicable Indian and international regulatory and safety standards.

4. The X-ray generator shall be a high-frequency inverter-based system with a minimum output power of 5 kW. It shall provide a tube voltage range of 40–125 kVp, tube current range of 10–100 mA, mAs range of 0.1–200 mAs, and exposure time from 1 ms to 5 seconds or better.

5. The system shall incorporate Anatomical Programmed Radiography (APR) with veterinary-specific examination presets for commonly performed canine imaging procedures.

6. The generator shall be capable of operating on rechargeable batteries with a minimum capacity of 100 exposures per charge and shall also support operation on a standard 230 V, 50 Hz, single-phase AC power supply.

7. The X-ray tube assembly shall be compatible with the supplied generator and equipped with dual focal spots suitable for imaging both small and large animals.

8. The tube shall have a minimum heat storage capacity of 100 kHU, thermal overload protection and comply with IEC requirements for leakage radiation. The system shall be mounted on a robust mobile support with an articulated tube arm that permits smooth positioning and secure locking.

9. The suspension system shall provide motorized/electrically operated vertical height adjustment, with a minimum vertical travel of 120 cm, horizontal reach of at least 100 cm, and tube rotation of ±180°, enabling convenient imaging of animals positioned either on examination tables or on the floor.

10. The system shall be supplied with a wireless Cesium Iodide (CsI) Flat Panel Detector of 14 × 17 inch size suitable for imaging large canine thorax and abdomen in a single exposure.

11. The detector shall have a pixel pitch of ≤140 µm, a minimum 16-bit grayscale, and a detective quantum efficiency (DQE) of ≥65%. It shall support wireless image transmission and incorporate internal image storage to permit acquisition during temporary communication interruptions.

12. The detector shall have a battery backup sufficient for at least 8 hours of routine operation and provide minimum IPX4 protection against accidental fluid exposure in veterinary environments.

13. A dedicated veterinary image acquisition workstation shall be supplied with the system. The workstation shall include a medical-grade touch display of at least 15 inches, Intel Core i5/i7 processor or higher, minimum 16 GB RAM, 512 GB SSD, and a licensed Windows operating system. It shall be fully DICOM 3.0 compliant and support LAN, Wi-Fi and USB connectivity for integration with PACS, network storage and external image transfer. The workstation shall provide adequate i

nternal storage for archiving acquired studies and allow easy retrieval of records .

14. The supplied image acquisition and processing software shall provide image pr eview within 5 seconds and final processed images within 10 seconds or better. It shall include automatic image optimization algorithms specifically designed fo r veterinary radiography and provide functions such as window/level adjustment , zoom, pan, rotate, flip, image annotation, linear and angular measurements, a nd image enhancement. The software shall additionally include a Norberg Angle measurement tool for canine hip dysplasia evaluation. Images shall be exportabl e in DICOM, JPEG, TIFF, BMP and PNG formats without loss of diagnostic quality.

15. The portable DR system shall be compact, ergonomically designed and mounte d on heavy-duty lockable castor wheels suitable for movement within clinical an d animal housing areas. It shall include an integrated detector storage compart ment and a detachable exposure switch.

16. The exposure switch shall be supplied with a minimum 20-metre exposure cabl e to facilitate operator safety by permitting exposures from outside the controlle d radiation area wherever feasible. The system shall be designed for continuous operation under routine veterinary hospital conditions and shall have a rugged c onstruction suitable for repeated movement and clinical use.

17. The bidder shall supply all accessories required for complete operation of the s ystem, including detector holder, foam positioning wedges, positioning troughs, immobilization straps, sandbags suitable for both small and large dogs, battery chargers and all necessary connecting cables. Radiation protection accessories s hall include two lead aprons, two thyroid shields, two pairs of lead gloves, gonad shields and radiation warning signage, all conforming to applicable radiation saf ety standards.

18. The bidder shall be responsible for complete delivery, installation, testing, com missioning and demonstration of the equipment at the designated site. Compreh ensive onsite application training shall be provided to veterinarians, radiographe rs and technical personnel covering equipment operation, image acquisition, rou tine maintenance, radiation safety and software usage. User manuals, service m anuals and all technical documentation shall be supplied in English at the time o f installation.

19. The offered system shall possess valid AERB Type Approval, comply with the M edical Device Rules (MDR), 2017, applicable BIS requirements, and be certified t o IEC 60601-1, IEC 60601-1-2, ISO 13485, and CE standards or equivalent intern ationally recognized certifications. Documentary evidence of compliance shall b e submitted along with the technical bid.

20. The equipment shall be covered by a comprehensive onsite warranty of five ye ars, commencing from the date of successful installation and acceptance. During the warranty period, the bidder shall provide at least two preventive mai ntenance visits per year, unlimited breakdown service calls, free software updat es, and replacement of defective parts without additional cost. Service response time shall not exceed 48 hours, and the bidder shall ensure availability of spare parts and service support for a minimum period of ten years after expiry of the warranty.

21. Final acceptance of the equipment shall be subject to successful installation, de monstration of all quoted specifications, satisfactory image quality, completion o

f user training, and submission of all statutory approvals, calibration certificates, warranty documents and operational manuals.
